

# ADHVAITH PRASAD

## Software Developer

✉ [adhvaith.prasad2006@gmail.com](mailto:adhvaith.prasad2006@gmail.com) <https://github.com/adhvaithprasad/> [📍 Kozhikode, India](#)

## SUMMARY

Developer deeply passionate about building tools that improve the programming experience. Experienced with full-stack development, developer infrastructure, and collaborative coding platforms.

## EXPERIENCE

### Regular Participant

#### Hacktoberfest

An event encouraging open-source contributions

- Collaborated with other hackers from around the world to contribute in multiple open-source projects
- Helped embed a code editor on an API testing software

## EDUCATION

### High School

#### Bharatiya Vidya Bhavan

📅 01/2019 - 05/2024 [📍 Kozhikode](#)

## PROJECTS

### Sylphus

Cloud Based IDE

- An advanced online code editor built using HTML, CSS, and JavaScript
- Has GitHub API integration
- Real-time collaborative
- Enables deployment to Netlify directly from the interface
- Includes a git view for Pull & Push git changes and a real-time mode for collaboration

### Gitster

Custom Git server

- A Node.js-based private git server
- Easily pull and push repositories
- Includes full-fledged authentication systems
- Provides a real-time dashboard for reviewing changes, branches, and commits

### XenialDb

JSON based Database

- A Node.js-based key-value database designed for easy use
- Currently implementing authentication based private API for user accessibility

## LANGUAGES
